

Andrew Kapusta

PRODUCT DESIGNER (UX/UI) • KYIV, UKRAINE

EMAIL ANDRIIKAPUSTA89@GMAIL.COM LINKEDIN [ANDREW-KAPUSTA](#)

PORTFOLIO [KAPUSTADESIGN.FRAME.AI](#)

Product designer with 10+ years solving complex business problems across B2B platforms, enterprise SaaS, and hardware-connected interfaces. I think in systems, ask why before how, and own the full lifecycle — from first-principles research to pixel-perfect delivery.

EXPERIENCE

User Interface Designer • Product Designer

UDTech · Full-Time · Zaporizhzhia May 2019 – March 2026

Managed UI/UX design for complex B2B products including a real-time employee tracking system (Trace) and wireless device management app (AirPair). Owned full product lifecycle from discovery to developer handoff, contributing to a 40% efficiency gain and 3× faster incident response on Trace. Used AI tools (Claude, Cursor) to accelerate prototyping, documentation, and design iteration. Collaborated with hardware and firmware engineers to align interface states with device protocols.

● Product Designer

Brownells · Outstaff / Contract · Germany Feb 2023 – Dec 2025

Designed enterprise e-commerce and CRM/CMS architecture components for the EU market. Focused on high-fidelity responsive prototyping, scalable interface solutions, and design system expansion.

● UX/UI Designer

Touchcast · Outstaff / Contract · USA Aug 2019 – Dec 2022

Designed virtual event and enterprise video platform interfaces for the US market, supporting 130+ enterprise events with 200+ live attendees on average. Developed mobile and desktop applications with a strong focus on interactive prototyping and component design.

UX/UI Designer

Upwork · Freelance Feb 2019 – May 2019

Delivered UI/UX projects for international clients across SaaS and consumer products.

UX/UI Designer • Design Lead

S-PRO · Full-Time · Zaporizhzhia Oct 2016 – Feb 2019

Progressed from Junior to Lead Designer, owning the end-to-end design of scalable enterprise interfaces and architecting comprehensive design systems. Established core design processes, conducted user research, mentored junior talent, and managed corporate stakeholder relationships.
