SUMMARY

Product Designer with 10+ years designing B2B platforms, enterprise SaaS and hardware-connected (IoT) products: real-time tracking dashboards, device companion apps, multi-country e-commerce and virtual event platforms. Owns the full product lifecycle — discovery and user research, user flows, wireframes, interactive prototypes, design systems and developer handoff. Works closely with product managers, developers and hardware/firmware engineers, and uses AI tools (Claude, Cursor) to speed up prototyping and documentation.

EXPERIENCE

Lead Product Designer

UDTech · Zaporizhzhia · Full-Time; Outstaff Projects Listed Below — May 2019 – March 2026

Product design for IoT and hardware-connected products: real-time tracking, wearables and smart devices, from first research to developer handoff.

- Trace. Designed the manager dashboard and mobile app for live worker tracking. +40% operational efficiency, 3× faster incident response; launched in 8 months.
- AirPair. Designed pairing, onboarding and device status end to end. 100+ units deployed; international patent granted.
- Lockbox. iOS app for owners plus a code-only flow for couriers, from user flows to an InVision prototype; working prototype handed to the client.
- Aligned interface states with device protocols; used Claude and Cursor to speed up prototyping and documentation.

Product Designer

Brownells Europe (now Odos) · Germany (outstaff via UDTech) — Feb 2023 – Dec 2025

- Led the redesign of a multi-country e-commerce platform for hunting and sport-shooting gear: 12 localized EU stores, 40,000+ products.
- Designed Shop by Firearm (make/model compatibility filter), navigation and search, cart and checkout, parts schematics, and the customer account with an 8-step order-tracking timeline.
- Built the design system and localization rules (text length, currencies, VAT and delivery, per-country assortment) and the mobile adaptation; owned research, wireframes, prototypes and developer handoff.
- Worked with a PM and front-end/back-end developers, and with client stakeholders: CEO, E-commerce Manager, Director of DevOps & Platform.

UX/UI Designer

Touchcast · USA (outstaff Via UDTech) — Aug 2019 – Dec 2022

- Designed the desktop attendee experience of an enterprise virtual events platform: event landing, session card system, live broadcasting, advanced search and networking side panels.
- Designed Greenroom, a mobile companion for small closed-door discussions at events.
- Platform supported 130+ enterprise events with 200+ live attendees per session on average.

UX/UI Designer

Upwork · Freelance — Feb 2019 – May 2019

Delivered UI/UX projects for international clients across SaaS and consumer products.

UX/UI Designer → Design Lead

S-PRO · Zaporizhzhia, Ukraine (Full-Time) — Oct 2016 – Feb 2019

- Progressed from Junior to Lead Designer; owned end-to-end design of scalable enterprise interfaces and built comprehensive design systems.
- Established core design processes, conducted user research, mentored junior designers and managed stakeholder relationships.
